

Transportation 2004

Your Guide to Transportation Projects in Las Vegas, Nevada

2004

The City of Las Vegas Department of Public Works strives to meet the present and future needs of Las Vegas, with more than \$185 million in improvement projects in the works. Several transportation projects are underway on the streets of Las Vegas now and more are planned to start in the coming months. Many of these projects are presented here.*

Project	Description	Ward	Status
Alexander Road – U.S. Highway 95 to Rancho Drive	Road and Storm Drain Improvements	6	Complete 1 st Qtr. 2004
Alexander Road and Hualapai Way – Cheyenne Avenue to Durango Drive	Road and Storm Drain Improvements, and Traffic Signals at Hualapai Way and Cheyenne Avenue	4	Starts 1 st Qtr. 2004
Anasazi Drive Overpass at Summerlin Parkway Interchange between Crestdale Lane and Western Beltway	Overpass Construction	2,4	Starts 1 st Qtr. 2004
Alta Drive and James Down Tower	Traffic Signals	1	Complete 2004

*Many transportation projects develop roads to increase traffic capacity. Full improvements typically include widening a road to two or three travel lanes in each direction depending on roadway width, and a continuous turn lane. Work also includes the installation of curbs, gutters, sidewalks, streetlights, storm drainage systems and traffic lights, where applicable. Some roads are initially improved and striped to accommodate two lanes of traffic in each direction. Then, as traffic increases, the newly improved roadway can be re-striped to its full capacity of three lanes in each direction.

Public Works Department Mission: Plans, designs, constructs, operates and maintains city public use facilities, roadway and traffic network, wastewater and stormwater management systems and regulates private development.

Project	Description	Ward	Status
Ann Road west of Hualapai Way	Flood Control Detention Basin Construction	6	Starts 3 rd Qtr. 2004
